ABB GE Industrial 9T10A1002 General Purpose Transformer; 3 Phase, 480 Volt Primary, 208 Volt Y/120 Volt Secondary, 30 KVA #103976

ABB GE Industrial 9T10A1003 General Purpose Transformer; 3 Phase, 480 Volt Primary, 208 Volt Y/120 Volt Secondary, 45 KVA #106035

ABB GE Industrial 9T10A1004 General Purpose Transformer; 3 Phase, 480 Volt Primary, 208 Volt Y/120 Volt Secondary, 75 KVA #6846

ABB GE Industrial 9T10A1005 General Purpose Transformer; 3 Phase, 480 Volt Primary, 208 Volt Y/120 Volt Secondary, 112.5 KVA #130466

GE Type QL transformers meet DOE 2016 efficiency standards. They are available with aluminum or copper windings and utilize a UL recognized 220°C insulation system.

- Quiet Performance
- Outward-facing mounting feet
- Lug kit included
- Ground bar kit included
- Core and coil assemblies are mounted on rubber isolation pads to reduce noise
- Bolted coil terminations
- Single-piece front/back is easily removable for service
- NEMA 2 drip-proof enclosure is standard; weathershield kits are available for conversion to NEMA 3R outdoor configuration
- Qualified to the seismic requirements of IEEE-693-2005 and IBC-2012 and CBC 2013
- Copper or aluminum windings
- Copper ground strap
- Robust packaging with top and side protection protects against shipping damage
- Accessible mounting flanges with front/back slotted mounting holes make installation easier
- 100% factory tested for shorts and coil integrity, current and loss, voltage, impedance and noise.
- Clear, comprehensive documentation and labeling

EC&M
Product of the Year
 2021 Category Winner

MC Glide Lite™ Features:

Easier pulls. U.S. Patent Pending armor profile is designed to reduce fatigue on your workers when pulling cable through metal studs and ceilings.

No need for new tools. Works with the same tools, fittings and supports as traditional MC Cables.

Time savings. From the first pull, installing MC Glide Lite™ will be smoother, faster and easier to work with.

Minimize damage to studs. Less resistance means less opportunity for cable hang ups, that may knock down studs.

AMERICAN

FITTINGS

SINCE 1946

Better Products, Better Ideas, Better Value, Think AMERICAN

AMFICO

Innovating the Next Generation of Electrical Fittings

Founded in 1946, a family owned and operated, 3rd generation business, we have grown into the world's largest manufacturer of alloy steel electrical fittings. Headquartered in New Jersey, all products are sold exclusively through Authorized Stocking Distributors.

Our products are made in the USA, and they will exceed your requirements and expectations, not your budget. We never apologize why our products are made in America; we suggest you ask our competitors "why they don't"! Random lot shipping inspection in a foreign country can never replace integrity manufactured into raw materials and manufacturing in this country. Don't consider us as just a government project supplier, consider us as your fitting supplier for all types of projects.

We Provide the Best Out of Stock Fulfillment Rate in the Country

We are a Preferred Vendor

Expanded Possibilities

Introducing Intermatic Low-Profile Expandable In-Use Weatherproof Covers

Tired of fussing with bulky, hard-to-open weatherproof covers? Upgrade your next project with Low-Profile Expandable In-Use Weatherproof Covers from Intermatic.

Combining the durable construction installers count on with improved aesthetics and a sleek, modern design, low-profile in-use covers are a fresh alternative to traditional weatherproof cover options. Available in standard and extra-duty configurations, low-profile in-use covers include an expandable front window that can be collapsed to save space when not in use as well as a no-hassle latch, with lockable hasp, that can be opened effortlessly with one hand.

Learn more today at Intermatic.com/low-profile-in-use-cover
