EXPRESS KIT SPEC GUIDE

For installation under carpet tile

Express Solution for Power & Data

Express Kits are a grab-and-go solution that conveniently manages both power and data cables. Our hidden under-carpet option works best under carpet tile for both retrofit and new construction applications.

Features & Benefits

- **Pre-Wired Power**
Features a Receptacle Device that snaps into an Express Power Hub. This Hub is attached to a flexible steel conduit that is pre-wired for simple and quick installation.
- **Versatile Data**
Data accommodates up to 8 Cat-6 data cables and holds up to 8 customizable keystone modules.
- **Low-Profile Transition Ramps**
Ramps seamlessly transition the wireway to the floor and meet ADA compliance standards.
- **Non-Disruptive Installation**
Easy to install and can be cut to size in the field, which allows more work during regular business hours.

MC Glide Lite™ Features:

Easier pulls. U.S. Patent Pending armor profile is designed to reduce fatigue on your workers when pulling cable through metal studs and ceilings.

No need for new tools. Works with the same tools, fittings and supports as traditional MC Cables.

Time savings. From the first pull, installing MC Glide Lite™ will be smoother, faster and easier to work with.

Minimize damage to studs. Less resistance means less opportunity for cable hang ups, that may knock down studs.
